

English native speaker for voluntary support in Montessori primary school

We want to enrich our English learning environment by employing a native speaker. Do you enjoy working with children (ages 6-10) and are you interested in our alternative approach to teaching and learning? We would be very happy to meet you!

Our school was founded in 2020 by the non-profit organisation "Lebendig lernen e. V.". At present, 40 children learn according to their individual pace, needs and interests in two mixed-aged groups in our primary school in Osnabrück-Atter. The core professional team consists of five teachers and learning guides, including a professional English teacher.

As we are a growing system and have plans on founding a secondary school in 2024, offering you a salaried position in a long-term perspective is a possibility. For now, you would be an additional and highly appreciated support for us.

Are you the person we are looking for?

You are open-minded and interested in new experiences. You like children as well as working in a team, and you enjoy communicating in your mother tongue. We would be glad for any kind of support from 2-10 hours per week, a full- or part-time internship over several weeks or a voluntary service from 6-12 months ("Bundesfreiwilligendienst"). We can offer a welcoming atmosphere and a meaningful voluntary work.

If you are interested, please contact us via email (schulleitung@freie-schule-osnabrueck.de) or telephone (0541/76021971).

We are looking forward to meeting you!

Freie Montessori-Grundschule Osnabrück, Glasgowing 28, 49090 Osnabrück
